

OUR GREEN POLICY

KDM is your partner in your green journey...

KDM P.O.P. Solutions Group has formed an internal Green Team to take on the company wide agenda of reducing our ecological footprint within our processes and our products.

By integrating environmental considerations into our corporate culture we will achieve our goal to provide a healthier, more earth friendly environment for our employees, our customers and our community.

We will achieve our goals by:

- Providing employee education and training
- Raising customer and community awareness
- Exploring alternate technologies and efficiencies
- Working with responsible suppliers

Here are some of the specific efforts we have achieved to date:

- Formed an internal Green Team
- Applied for the Sustainable Green Printing (SGP) partnership- 3rd party certification
- Observe laws and regulations related to EHS including EPA and OSHA regulations
- Monitor and report all air emissions and waste water discharge to local, state and federal authorities
- Utilize FSC or FSI certified vendors for our paper supply
- Nearly 100% UV inks used for screen, offset and digital print methods
- Research and offer eco-friendly print substrates: pre-consumer & biodegradable
- Recycling programs in place for substrates: paper, corrugated and polystyrene
- Recycling of materials used in the print process: silver from processors, old film, aluminum plates
- Re-use screen chemistry
- Recycle light bulbs and batteries
- Recycle computer hardware
- Pallets are made of recycled #2 material, and are recycled for re-use
- Installed energy efficient lighting system with motion sensors
